

Springwell Child Care

Positive Behaviour Policy and Procedure

This service will work in partnership with parents, taking into account individual/family circumstances and the child's age and stage of development.

A consistent approach will be applied to promote self respect and respect of others.

Positive behaviour is encouraged, and is promoted by way of a positive role model. Positive behaviour is promoted through praise.

In the event of inappropriate behaviour:

- The child is directed to stop what they are doing.
- If appropriate, the child/children will be encouraged to discuss the incident and the effect on others.
- The child is given the opportunity to discuss their behaviour – change it - and return to the activity.
- If further inappropriate behaviour continues, the child will be removed from the situation with an explanation given.
- Parent/carer will always be informed of their child's day at this service.
